Thyroid Antibodies: Thyroid Peroxidase (TPO) and Thyroglobulin (TGAb)

Collected on April 16, 2024 12:27 PM

New comments

Timothy Kennard, MD Apr 19, 9:22 AM

The results of your recent blood work are included below. Most of your lab results look excellent and are normal at this time.

- 1. Thyroid antibody slightly elevated consistent with likely Hashimoto's. TSH and free T4 were normal.
- 2. Labs overall unremarkable

Please follow-up in clinic as we discussed at the time of your appointment.

Thank you for allowing me to participate in the care of your health. If you have any questions or concerns, please give us a call at the clinic so we can ensure that we are meeting all of your health care needs.

Warmest Regards,

Tim Kennard, MD

Thyroid Peroxidase (TPO) Antibodies

Normal range: 0 - 34 IU/mL

**Thyroglobulin Antibody**

Normal range: 0.0 - 0.9 IU/mL

Value

<1.0

Thyroglobulin Antibody measured by Beckman Coulter Methodology
It should be noted that the presence of thyroglobulin antibodies may not be pathogenic nor diagnostic, especially at very low levels. The assay manufacturer has found that four percent of individuals without evidence of thyroid disease or autoimmunity will have positive TgAb levels up to 4 IU/mL.

Ordering provider: Timothy Kennard, MD

Collection date: April 16, 2024 12:27 PM

Specimens: Blood (Venous)

Result date: April 18, 2024 11:35 PM

Result status: Final
