

# Results Follow-Up - Jan 18, 2025

with Timothy Kennard, MD at Atrium Health Primary Care Indian Trail Family Medicine

## Notes from Care Team

### Telephone Encounter

Marisa H at 1/23/2025 10:12 AM

3RD ATTEMPT LETTER SENT

Marisa H at 1/23/2025 10:12 AM

----- Message from Timothy Kennard, MD sent at 1/21/2025 8:09 AM EST -----  
Recommend repeat labs in 2 to 3 weeks

Fasting lab visit. Will try to do nothing but water for at least 8 hours prior to the visit

Lipid panel  
DX = elevated cholesterol

A1C  
DX = IGT

TSH with reflex to T4  
DX = abnormal TSH

Thank you!

Labs were reviewed, overall look great except:

1. TSH slightly elevated, free T4 looks okay.
2. Blood sugar and cholesterol both elevated. Can we verify that she was fasting for at least 8 hours?
